

MODEL 718 MAINTENANCE KIT

ASSEMBLY INSTRUCTIONS AND PARTS LIST

MODEL 476 CHLORINE TEST KIT

INSTRUCTIONS:

Simple to use chlorine test kit with permanent instructions on testing vial.

DO NOT leave children unattended around a pool filled with water.

Other than for safety, there is no need to empty the pool daily if the water is properly maintained using Chlorine or Clorox® Bleach, a test kit, a pool skimmer and a kiddie pool vacuum.

Regular Clorox® bleach is excellent for keeping kiddie pools clean and clear. Clorox® bleach can be used to prevent the spread of germs and algae growth in all types of pools.

When used properly, Clorox® bleach will not hurt children and will not have an adverse effect on the materials used in pool construction or liners.

Use regular Clorox® bleach only and not lemon, fresh scent, etc.

Instructions:

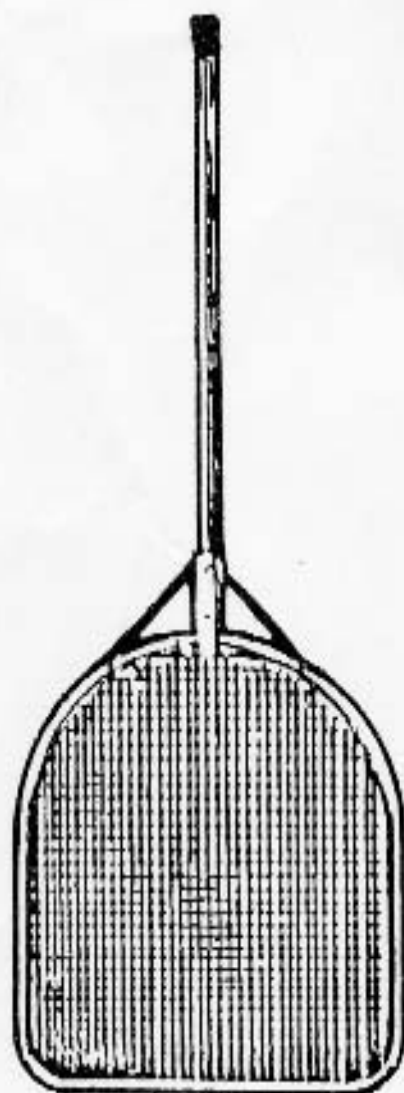

Use approximately 1/8 cup bleach per 100 gallons of new pool water. Use the chart below as a beginning guide for the amount of Clorox® bleach to add based on pool size and water level:

WATER DEPTH	POOL DIAMETER				
	4 feet	6 feet	8 feet	10 feet	15 feet
6 inches	1/16 cup	1/8 cup	1/4 cup	3/8 cup	3/4 cup
1 foot	1/8 cup	1/4 cup	1/2 cup	3/4 cup	1-5/8 cups
2 feet	1/4 cup	1/2 cup	1 cup	1-1/2 cups	3-1/4 cups
3 feet	3/8 cup	3/4 cup	1-1/2 cups	2-1/4 cups	5 cups

Mix bleach with 2 gallons of water and scatter over the surface of the pool. Then mix in with pool water.
